The restriction, applied to claims 1-83, mailed on September 09, 2005 is now withdrawn because it is not clear.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-78, drawn to a mass spectrometer and/or method using a variation of an electric field to control ions having different mass to charge ratios to arrive at an extraction or acceleration region at the same time, classified in class 250, subclass 287.
- II. Claims 79-83, drawn to a mass spectrometer and/or method using an adjustable aperture, shutter or beam stop for selectively passing ions into a drift or flight region, classified in class 250, subclass 281.

The inventions are distinct, each from the other because:

Inventions I and II are distinct, each of the inventions I and II recites the limitations not recited in the other invention. The differing limitations make the inventions I and II patentably distinct from one another, i.e., a reference that anticipates or makes obvious one of the inventions I and II would not by itself anticipate or make obvious the other invention.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Jamie H. Rose on 12-23-2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 2881

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
